WORK EXPERIENCE

- The Kreatr**
Full Stack Developer
03/2024 – Present
 - **Developer**, managing **infrastructure** and **projects**. Variety of tools includes **VS Code, Xcode, Android Studio**, and **Postman**.
 - Directed **development of LinkedIn-like platform for designers** using **Next.js, Express.js, DynamoDB**, and **Node.js**.
 - Developed and maintained **responsive websites** with modern technologies.
 - Designed robust backend solutions including **RESTful APIs** and **authentication**.
 - Launched **Android** and **iOS apps** with **Flutter** for cross-platform experience.
 - **Mentoring one intern**, overseeing their tasks and professional development. As a Team Player, I collaborate effectively with Team Members to achieve their Goals.

PhonePanchayat
Software Developer Intern
09/2023 – 12/2023

- **Developer of Phone Panchayat app** using Flutter with a microservices-based backend.
- Achieving **300,000+ downloads**, a **30% user increase post-update**, and **winning the Rajasthan Social Impact ChampionAward**.
- Used technologies such as **Flutter, AWS, Lamda functions, DynamoDB, REST API**.

[Certificate](#)

Doctunes
Software Developer Intern
06/2023 – 08/2023

- Utilized **Flutter (Dart), Firebase, and REST API**.
- Enabled web scraping in Flutter using **HTTP and HTML and Integrated Google Drive API** for document retrieval.
- Designed UI for Forgot Password and Google Drive.
- Getting traffic of **85k per month which boost company overall revenue by 40%**.

[Certificate](#)

Department of Information Technology & Communication
Software Developer Intern
07/2022 – 12/2022

- Developed an application named “**istart**” to provide funding to startups by government of Rajasthan.
- Worked on technology like **Flutter, Dart** build **frontend** and **backend** using **API**.

[Certificate](#)

Pina Systems
Software Developer Intern
05/2021 -- 10/2021

- Build frontend and backend and added features like Login, Search, Chart and Dashboard, worked on **REST API, Flutter (Dart)**.
- Fixed few bugs in app.

[Certificate](#)

EDUCATION

- Poornima College of Engineering, Jaipur**
- *Bachelors of Technology in Computer Science (Hons)*
Aug 2019 - July 2023 **CGPA – 8.22**

- Tilak Public School, Jaipur**
- 12TH Boards **72.4% in CBSE**

SKILLS

C, C++, Flutter (Dart), Tailwind, React, Next.js, Express.js, Nodejs, HTML, CSS, JavaScript, Firebase, SQL, MongoDB, Docker

PROJECTS

- Code World (Android App)**
04/2021 – 06/2021
 - Android app built with **Flutter (Dart) and Firebase**.
 - Offers video tutorials and practice questions.
 - Includes **favorites, profile viewing, and topic search**.
 - Available on **Google PlayStore with 500 downloads**.
- [Demo](#) [GitHub](#)

- React-Complex-Grid-Builder** [Link](#) [Demo](#) [GitHub](#)
06/2024 (3 Days)
 - **Purpose:** React Complex Grid Builder is a versatile **package** designed to facilitate the creation of **complex grid layouts** in React applications. It is ideal for building sophisticated structures for content-heavy applications like blogs, galleries, portfolios, and news sites.
 - **Customization: Highly customizable** for diverse design requirements, including **images, text**, and **metadata**.
 - **Responsive Design:** Ensures **adaptability** across various devices for consistent user experience.
 - **Performance Optimization:** Efficiently handles large datasets with **optimized rendering** for smooth interactions.
 - **Flexibility:** Supports a wide range of **content types and layouts**, from simple galleries to multi-column blogs.
 - **Integration: Seamless integration** with existing React applications and **compatibility** with popular libraries.
 - **Got Average Weekly Downloads : 5**

ACHIEVEMENT & CERTIFICATION

- Participated in **XROS fellowship, Hacktoberfest** and **C4GT** open-source opportunity.
- AIR **5** [Xiaomi Hackathon](#) “Ode2Code2.0”.
- Secured **271st** rank in Innovate India Coding Championship finale conducted by **Coding Ninjas** and **AICTE** in collaborationwith **Chandigarh University**.
- Among top **25** out of **2600** teams in “Ctrl AltDebt” hackathon by **CredAvenue**.
- **Mentoring participants at C4GT** (Code for Government Tech) on government technology projects and technical challenges.
